

# TANG ZHI TECHNOLOGY (HEBEI) CO., LTD

## Technical Data Sheet

### Defoaming agent (Defoamer)

#### Description:

Defoamer is an auxiliary agent, and its function is to eliminate the foam formed by materials during the production process. The main component of organic silicon defoamer is silicone oil, which is a non-volatile oily liquid at room temperature. It is insoluble or has very low solubility in water, animal and vegetable oils and mineral oils. It can withstand both high and low temperatures. It is chemically inert, physically stable, and has no biological activity.

#### Specifications:

Item	Specification
Appearance	White power
Effective solid content	$\geq 91\%$
Water soluble pH	6-8
Organic content (%)	20
Defoaming performance	500ML/5 minutes
Heavy metals (in pt)	$\leq 0.0005$
